- ▶ Family Size=all the children and all of their parents and all spouses of children's parents living in the same household.
- ▶ The amount of money shown in each Income Level is the maximum amount of gross annual income a family can earn in that level.
- ▶ Co-Payment indicates approximate weekly co-payment range for families at the percent of income indicated.
- ▶ The Percent of Income assigned at each level is applied against the gross annual income then divided by fifty two (52 weeks) to determine the weekly co-payment the family is expected to pay each week.
- ▶ The co-payment is assigned to the youngest child enrolled in care. DHS subtracts the assigned family co-payment from the full rate for that child when making payments. If the co-payment exceeds the rate paid for one child, the remainder of the family's share is assigned to the next oldest child enrolled.
- ▶ If family income or family size decreases, the family co-payment is re-calculated.
- ▶ The family is expected to make the same weekly co-payment to the designated provider regardless of the number of children or the amount of time enrolled.
